Open Access Service Center

Sharing knowledge, making information accessible to all and accelerating academic debate – these are the aims of open access. The Open Access Service Center can help you publish your research findings in an open-access format, provide support with complying with open-access guidelines and advice on technical and financial issues connected with open access. Feel free to contact us!

You would like to apply directly for funding of your open access publication? Use the application form!

- application form: article →
- application form: book or paper →
- application form: monographs and anthologies →

- About us
- Team
- Facts and figures

Basics

- What is open access?
- What models are available?
- How can I find the right journal?

[Learn more](#)

Funding

- Funds for articles and monographs
- Open-access initiatives
- Special terms

[Learn more](#)

Recommendations

- How can I assign keywords?
- How can I find authors?
- What standards are there?

OPEN ACCESS IN BONN

WHY?

- ✓ Open access is a form of scientific publishing. The idea comes from science itself.
- ✓ Open access means free access to scientific publications and information in digital form.
- ✓ Funding and scientific organizations are committed to the goal of making research results freely accessible to everyone worldwide - free of charge and without technical or legal barriers.
- ✓ At the University of Bonn, open access is a strategic goal.

Article fund

Payment of fees for articles in open-access journals or for contributions in open-access books

Publish **articles** immediately in open access, also **cumulative doctoral theses**

www.open-access.uni-bonn.de/en/funding/funding-articles

Book fund

Payment of fees for open-access books (monographs or edited volumes)

Publish **books** immediately in open access, also **excellent doctoral theses**

www.open-access.uni-bonn.de/en/funding/funding-monographs

bonndoc

Platform for open access publication via the University of Bonn

Publish **directly and free of charge** or **additional/time-delayed** open access publications, also **doctoral theses**

www.bonndoc.ulb.uni-bonn.de/xmlui/?locale-attribute=en

Open Journal Systems

Platform for the open access publication of journals via the University of Bonn

Publish **journals** immediately in open access (often without a publisher)

www.open-access.uni-bonn.de/en/recommendations/open-access-journal

ARTICLE FUND

WHY?

The University of Bonn's publication fund for articles in journals and book chapters can help you to cover the costs incurred when you publish an article in an open-access periodical or a chapter in an open-access book.

As a researcher at the University of Bonn, you can apply to have your fees (article/chapter processing charges) covered.

 Publish **articles** immediately in open access, also **cumulative doctoral theses**

 www.open-access.uni-bonn.de/en/funding/funding-articles

ARTICLE FUND

GUIDE

1 Submit an application via our online form for [articles](#) or [book chapters](#).
When doing so, please note the funding criteria.

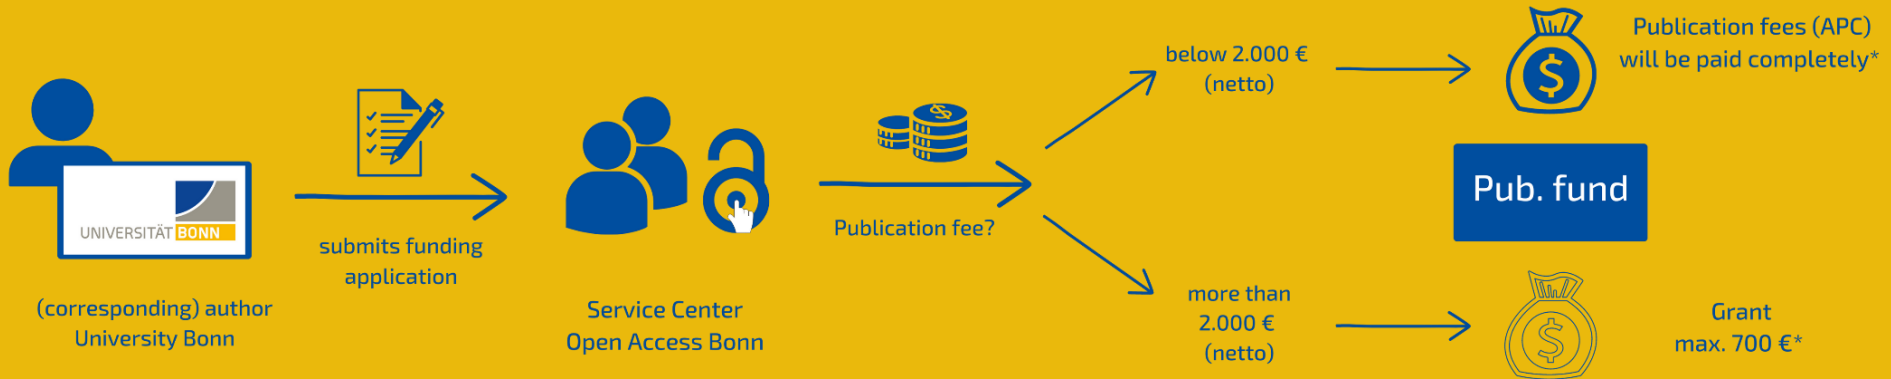

2 You will receive a message whether your publication will be funded (proportionally/completely). The amount of funding depends on the publication fee.

3 Send us the publisher's invoice.
Inform us of any delays or rejections.

WARUM?

bonndoc is the publication server of the University of Bonn – a place to publish and archive documents. With bonndoc, the university offers its members an infrastructure for publishing open access publications.

This service is free of costs for you.

Publish **directly and free of charge** or **additional/time-delayed** open access publications, also **doctoral theses**

www.bonndoc.ulb.uni-bonn.de/xmlui/?locale-attribute=en

YOUR PUBLICATION IN BONNDOC ...

- can be browsed easily in the **full text** and is thus found more quickly.
- is accessible **worldwide** and **free of charge**.
- is **retrievable** via search engines and is thus **more visible**.
- can be found internationally and nationally via **library systems**.
- can be **cited** online by providing permanent URLs.
- is **archived long-term** via the USL Bonn and the German National Library.

GUIDE

1

Check the [copyright](#) of your publication.
You need to have the proper rights.

2

Convert your file into a PDF (ideally PDF/A).
This will make it easier for us to digitally archive
your publication.

3

Log in with your Uni-ID and submit your publication [online](#).
Please note the accepted [types of publication](#) and the
[submission workflow](#).

OPEN JOURNAL SYSTEMS

WHY?

Open Journal Systems (OJS) is a system for managing and publishing digital journals. It provides support for all the steps involved in creating a journal (submission, peer review, reviewers' feedback, etc.). With OJS you can also start a new journal.

This service is free of charge.

✓ Publish **journals** immediately in open access (often without a publisher)

 www.open-access.uni-bonn.de/en/recommendations/open-access-journal

OPEN JOURNAL SYSTEMS

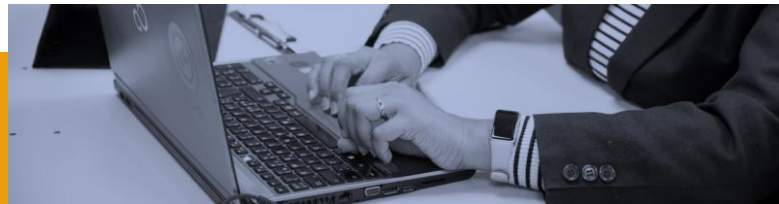

BENEFITS

- easy publication and **comfortable administration** and editing
- open and **non-commercial** platform for open access publications
- publication process and platform **in the hands of the scientific community**
- mostly **no fees** for articles contributed by authors
- Server and hosting of OJS journals **free of charge** for members of the University of Bonn

OPEN JOURNAL SYSTEMS

SCENARIOS

NEW

Setting up a new periodical

Have an idea for a new open-access periodical and seeking a suitable environment for it? We can help you get established and advise you on what you need to bear in mind.

"Moving" your periodical

If you already publish a periodical and would like to make it open-access in the future, we can help you migrate your periodical to a new (digital) environment.

Optimizing your workflow

If open access is not an option for your periodical but you would still like to optimize its workflow, digital management can do that for you too.

Any questions? Then contact the Open access Service Center!
