

bonndoc

bonndoc is the publication server of the University of Bonn – a place to publish and archive documents. With bonndoc, the university offers its members an infrastructure for publishing open access publications. This service is free of costs for you.

✓ Publish **directly and free of charge** or **additional/time-delayed** open access publications, also **doctoral theses**

🌐 www.bonndoc.ulb.uni-bonn.de/xmlui/?locale-attribute=en

Did you know that ...
you can also publish your doctoral thesis via bonndoc?

Learn more 

YOUR PUBLICATION IN BONNDOC...

- can be browsed easily in the **full text** and is thus found more quickly.
- is accessible **worldwide** and **free of charge**.
- is **retrievable** via search engines and is thus **more visible**.
- can be found internationally and nationally via **library systems**.
- can be **cited** online by providing permanent URLs.
- is **archived long-term** via the USL Bonn and the German National Library.

HOW DOES IT WORK?

1

Check the copyright of your publication.
You need to have the proper rights.

2

Convert your file into a PDF (ideally PDF/A).
This will make it easier for us to digitally archive your publication.

3

Log in with your Uni-ID and submit your publication online.
Please note the accepted types of publication and the submission workflow.
